

Contact Select

Contact Select allows a contact to be selected to perform a specific role on a tournament (e.g. Controller, Results Officer or Treasurer). It displays a list of all contacts on the system, and allows a new contact to be created if required.

Contact List

A list of all contacts on the system. If a contact has already been selected for that role, then that contact will be selected and highlighted.

New button

The New button will display the Contact details screen, so that a new contact can be created and selected for the required role.

Clear button

Clear button, will clear the existing select contact and close the screen.

Select button

Select button, selects the contact that is highlighted in the list for the required role.

Close button

Close button, closes this screen without any changes.
