As this is the first time the software has run rather than creating a new empty database, we will create the Demo database to allow you to look at all the functionality with completed and part played tournaments. This will allow you to play with the system prior to running your first tournament.

ction:	Load Demo Database	~		
lew Datab	ase			
older:	C:\Users\Neil\Documents\UTU			
Name:	UTU Demo.sdf			

Click on OK to create the demo database. Once the database has been created it will show a confirmation dialogue.

UTU Swiss	×
The UTU Swiss Demo database has been created	
ОК	

Please refer to the <u>Database User Guide</u> for more information on creating New databases and creating the Demo database.

### Update History

Once the database has been created, the Update History will be displayed.

Click on Close to continue.

This will be displayed in the future, the first time it is run after an update has been applied to UTU Swiss.

#### Select Tournament

The Select Tournament dialogue will be automatically displayed to allow you to view/update one of the tournaments.

## Prints and Outputs

At any time, a number of prints and outputs for a tournament can be produced at any time by using the Tournament -> Prints menu options or one of the Tournament menu options to generate one of the output files (eg ECF Submission file).

See the <u>Menu Overview User Guide</u> for Tournaments to look at what outputs can be produced for a tournament.

See the Printing User Guide for details of the various prints that can be produced for tournaments
